

Magal
Engineering Co. India Pvt. Ltd.

- Integration of state-of-the-art Laser Technology
- Maximum acceleration 2.5G, high productivity with ultra-precision cutting
- Improved Z-axis motion, rapid reaction velocity
- Damped Vibration through high-stiffness main frame & separated main frame and shuttle table
- Low-centered & weight lightened design, 10% lighter than Aluminum gantry
- Dual doors, easy & convenient approach to work table
- User-friendly & space saving design
- Range : 6kW / 8kW / 10kW / 12kW / 15kW / 20kW
